Discussions For Children – Let’s Talk About Graffiti

Lessons (for Grade Levels 5 and 6)

These lessons are designed to introduce children to the concept that graffiti is a crime, and is not art. They will learn how graffiti hurts people because it costs money to clean up and it scares people. They will also learn that property like walls, sidewalks and buildings belong to people and that doing graffiti on those things affects the owner. They will discuss the concept of property.

- Ask children if they know what graffiti means? Ask them if they have ever gone to the library and signed out a book that had been written on, drawn in or marked in? Have they ever seen a desk or table that has been written or drawn on? Ask them to give some other examples.

- Explain that graffiti can be pictures, letters or words written with paint, markers or scratched into something like a window. Graffiti is marking on someone else’s property without their permission.

- Explain to the children that when a picture, letter or words is painted or written on someone else’s wall, fence, sidewalk or building or any other property, it is not art. It is a crime.

- Explain what crime is. Tell students that the government makes rules. We call these rules laws. Graffiti is against the law and it is a crime.

- Have children think of times when they have seen graffiti.

- Ask children how they feel when they see a house with the windows and doors broken? How does a playground with trash on the ground and graffiti make them feel? How does graffiti make them feel?

- Explain to the children that there is gang graffiti and non-gang graffiti. Both kinds are a crime. Gang graffiti consists of words, initials, pictures, or marks of any kind done to someone else’s property for the purpose of marking the gang’s territory. It is used as a warning to members of other gangs not to come into that neighborhood. Gang related graffiti is encoded but can be read easier than other graffiti.

- Ask students to describe any graffiti they have seen. Do they think it was gang graffiti? Why or why not? Where was the graffiti located? Who do they think would’ve cleaned it up? Would that cost money? Why?

- Graffiti is not art, it is a crime. Anyone caught doing graffiti in Saskatoon can go to court and may be required to go to jail, pay back the victim or do community service. Some cities in the United States have laws stating that convicted graffiti vandals will not get a driver’s license until they are 18 years old.

*These excerpts have been taken from the City of Calgary/Calgary Police Services “Mona Lisa Anti-Graffiti Program”. These lessons were developed with the Calgary Engineering and Environmental Services and the Calgary Catholic Separate School District. If you would like a complete copy of this program please contact the Graffiti Control Specialist at 1-780-974-1099.
