### What is a private estate columbarium?

Cremations are increasingly becoming the preference for many. A private estate columbarium is a personalized mini-version of a community columbarium. They come in many styles, shapes and colors. You can choose a style with two or up to six niches per columbarium. Each niche can hold up to two cremated remains. For instance, if you purchase a columbarium with four niches, you can inter up to eight cremated remains.

**Note:** You are purchasing the interment rights to the plot with Woodlawn Cemetery where the private estate columbarium will be installed. The private estate columbarium is the responsibility of the family and can be purchased at a monument company of your choosing.

### Why choose this option?

- Customize and choose the style of columbarium that meets your needs.
- Offers a final resting place where family's cremated remains can be interred for generations to come, instead of having multiple locations throughout the cemetery.
- Benefit from economic savings if purchasing for family. You will not need to purchase multiple niches via the public columbarium or multiple plots throughout the cemetery.
